DETAILED ACTION

This office action is in response to the RCE with IDS filed May 5, 2009. Claims 1-28 are pending.

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on May 5, 2009 has been entered.

Information Disclosure Statement

2. The prior art documents submitted by Applicant in the Information Disclosure Statements filed on May 5, 2009, have been considered and made of record (note attached copy of forms PTO-1449).

Allowable Subject Matter

3. Claims 1-28 are allowed. The following is an examiner's statement of reasons for allowance: the closest prior art of record (Kaneko et al. U.S.P. No. 6,088,492; Kopetz et al. NPL; Ouchi US 2003/0179979 A1; and De Dobbelaere et al. U.S.P. No.

5,764,820) does not teach or reasonably suggest, *in combination*, the specific method for the production of an electro-optic printed circuit board (PCB) as claimed. In particular, there is no teaching or reasonable suggestion from the prior art of record to create the PCB with electrically conductive elements in which *polysiloxane* material is used for the optical layer as a *channel* waveguide(s), while further a *casting mold* is used as a *negative mold*, in which a mechanical connection between the optical waveguide layer and the at least one layer of electrically conductive PCB layers is produced in *direct* connection with the production of the optical waveguide layer (sole independent method claim 1, claims 2-28 dependent therefrom).

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Inventorship

5. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to

consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Conclusion

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to DANIEL PETKOVSEK whose telephone number is (571) 272-4174. The examiner can normally be reached on M-F 8:30-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Uyen Chau Le can be reached on (571) 272-2397. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
